## SOLAR-POWERED SECURITY TRAILER

Carolina Video Security, Inc. has developed a versatile and durable mobile security solution to address a large variety of mobile security needs across an array of industries. The solution offers an environmentally conscious, secure, and durable option to any agency in need of mobile security surveillance.

Once located in its desired location, the trailer features an outdoor-ready and vandal-resistant PTZ camera, panoramic view camera, and three LED flood lights making this solution effective day and night. The PTZ camera is mounted on top of a pneumatic mast that is easily-deployed and reaches a height of nearly 23 feet (7 meters). The three roof-mounted LED lights, feature bright-white light, ensuring clarity during night-time surveillance in even the most remote locations.

In addition to the trailer's security surveillance features, the trailer is designed to be secure and vandal-resistant. Unlike many other solar-powered mobile security trailers, this solution offers a cargo-trailer design. Placing the majority of the system's equipment within the trailer, protecting it from any unwanted tampering or adverse weather conditions. This design also

allows for worry-free towing and moving from location to location as needed.

Outfitted with three 250-watt solar panels and a large battery bank the carefully engineered power system on this trailer is designed to balance high demand with quality performance for a long operational life.

The power-supply and surveillance video on solar-powered security trailer is convenient to access and manage. Both the power supply and the video can be viewed remotely on any desktop, tablet and mobile device. The trailer features a power-management interface that can be regularly consulted by the trailer's users in order to manage the trailer's functionality

The mobile solar-powered security surveillance trailer offers a solution that is both convenient and reliable, overall ensuring the safety of your job site, large outdoor event, or even a local traffic intersection.

- **Easy set-up and deployment**
- **100% Solar Powered**
- **Designed for simple and secure towing and movement**
- **PTZ and Panoramic Viewing capabilities**
- **Simple video and power-supply management**
- **No manual cranking or set-up required**
- **Day-time and Night-time capabilities**
- **Integrated 4G/LTE Communication**

## ABOUT CVSI

### Our Company

Carolina Video Security, Inc (CVSI) provides, installs and maintains commercial and industrial physical security systems aimed at preventing intrusion through advanced surveillance and access control. CVSI also develops specialized law enforcement solutions for interview recording, video arraignment and in-field forensic video capture. We solve challenging design, environmental and networking requirements and employ the most advanced -- proven and reliable -- technologies to help protect your employees, facilities and operations. We are experts in IP networking, wireless communications, information and physical security technology. Our staff has years of experience in video technology and wireless communications.

### Our Solutions

- Commercial and Industrial Video Surveillance
- Access Control
- Intrusion Detection and Burglar Alarm Systems
- Video Conferencing Systems
- Interview Recording Systems
- Wireless Infrastructure
- Security Power Systems / Solar
- Emergency Notification Systems

### Our Services

- Physical Site Security Consulting
- System Planning, Design and Implementation Professional Services
- 24/7 Alarm and System Monitoring
